Point's financial assistance is most appreciated. Yes, the 5% is certainly no problem.

The address is correct. For tax purposes (and liability purposes too) I organize the conference through my corporation (Fantasia Systems Inc), so there should be no need for Point to deal with a 1099 (not needed for monies paid to corporations). If it is easier accounting-wise, you could make out the check to Fantasia. Your choice...

Thanks again.
